FEEDING DIRECTIONS

Key All Natural Layer 120 is a complete feed specially formulated to meet the nutritional requirements of laying hens. Feed as the sole ration to hens, in the first or early laying phase, from 20 to 34 weeks of age. Provide plenty of fresh clean water at all times. Oyster shells may be offered as free choice in a separate feeder. Feed, water, light, temperature and air quality are all important factors in the growth, production and success of your birds. For any questions concerning your feeding program, please contact your Keystone Mills Feed Consultant.

CAUTION: Do not feed supplemental selenium in excess of 0.3 ppm in the total nutritional diet.
