## FEEDING DIRECTIONS

Key All Natural Layer 235 is a complete feed specially formulated to meet the nutritional requirements of laying hens. Feed as the sole ration to laying hens, in the second or mid laying phase, from 35 to 44 weeks of age. Provide plenty of fresh clean water at all times. Oyster shells may be offered as free choice in a separate feeder. Feed, water, light, temperature and air quality are all important factors in the growth, production and success of your birds. For any questions concerning your feeding program, please contact your Keystone Mills Feed Consultant.

CAUTION: Do not feed supplemental selenium in excess of 0.3 ppm in the total nutritional diet.
