FEEDING DIRECTIONS

Broilers: feed from 3-6 weeks of age
Pullets: feed from 6-17 weeks of age

Provide plenty of fresh clean water at all times. Feed, water, light, temperature and air quality are all important factors in the growth, production and success of your birds. For a more specific feeding program, please contact your Keystone Mills Feed Consultant.

CAUTION: Do not feed supplemental selenium in excess of 0.3 ppm in the total nutritional diet.
